The every day normal conditions at Munson & McNamara's are prodigal to others and beyond the point of competition. Every department has wheeled into line with colors flying, the extraordinary is now the ordinary.

The wonderful assortment of dress goods, imperial in scope, monumental in bulk, incomparable in variety, universal in adaptation, the assembly of the best in all the world, is the one overshadowing illustration of the fact.

And the same may be said in the Millinery; we are talking the orders here now, when we give our opening it will be a wonderment.

A FATAL LAND SLIDE.

Three Persons Killed and Four Injured at Troy, N. Y.

Troy, N. Y., March 15.—At 3 o'clock this morning a land slide on the west side of Warren's hill swept away the two-story brick residence of Patrick Canfield and demolished the one-story frame dwelling of John Lawrence. Four families resided in the Canfield house. Mrs. Margaret Noonan and her daughter, Mrs. Johanna Hogan, both widows, and Annie Burns, 11 years old, were killed. Mrs. John Ahern and infant, Thomas Lawrence, and Mrs. Patrick Canfield, Jr., were injured but not seriously. The fire department was called out and the bodies of the dead were taken from the ruins. A mass of clay and earth fifty feet deep slid down from the hill side. The progress of the slide was stayed by a new brick house on the opposite side of Hannan's avenue and against which the slide swept the ruins of Canfield's house. Little Annie Burns, 11 years old, a granddaughter of Patrick Canfield, Sr., was taken out dead. John O'Connell, a man who was in the house, was taken out alive and succeeded in getting out his wife and baby. The body of Mrs. Noonan was taken out about 4 o'clock and the body of her daughter, Mrs. Hogan, was found an hour or so later.

WENT DOWN WITH THE BRIDGE.

Troy, N. Y., March 15.—About 3:50 o'clock this morning the Queensbury span of the old Queensbury Moreau bridge at Glenn Falls fell into the Hudson river with the workmen upon it. Nelson Sanson, a prominent member of the Cunningham Hose company, of Glenn Falls, was seen to rise twice from the water but must have been drowned. The remains of the bridge floated off with three men clinging to it. The body of George Carey, a veteran South Glenn Falls mail carrier, was taken out of the Moreau side. Those Holleran, of South Glenn Falls, was rescued badly cut about the head; he will probably die. Thomas Farley, of Windsor, Conn., an employee of the Benin Bridge company, was taken out with his right arm broken.

DEATH IN A DWELLING FIRE.

Hay City, Mich., March 15.—The dwelling house occupied by the families of John Nason and Thomas Lown, was discovered on fire early this morning. Mrs. Lown, in trying to escape, fainted away, but was discovered by her husband who, in his excited condition, threw her out of the window to the sidewalk below, fatally injuring her. The five-year-old daughter of Nason was overcome and perished in the flames.

Mr. Perkins' Correction and the President's Proclamation Stop But Few.

Nothing Short of the Military Force Able to Keep Out the Majority of Them.

Prairie Fires Driving Out the Stock—Cattlemen Little Encouraged by the President's Order—The Damage Already Beyond Reparation—The Onward March at Various Points.

CALDWELL, Kan., March 15.—Last night many men who have been waiting here for the opening of the strip in their land which they for the time called their own. Several messengers came into town during the night after blankets and tents. Today made in these articles has been very busy. These morning numbers who could not arrange affairs earlier, headed south and wagons were passing through the city all day. Those starting today are well fixed to stay. The south bound Rock Island train this morning carried large numbers of men for all stations through the strip who located claims as soon as they left the train.

HONORING THE LATE JUDGE KELLEY.

WASHINGTON, March 15.—After the adoption of a couple of resolutions calling on the departments for certain information and the passage of the bill, the house proceeded to pay the last tribute of respect to the memory of the late William D. Kelley, of Pennsylvania. Mr. O'Neill, of Pennsylvania, reviewed at length the career of the late Congressman. Others who delivered eulogies were: Messrs. Holman of Indiana, Banks of Massachusetts, Mills of Texas, McKinley of Ohio, Bingham of Pennsylvania, Wilson of West Virginia, Cannon of Illinois, McKenna of California, Rely of Pennsylvania, Atkinson of Pennsylvania, Brewster of Kentucky, Kerr of Iowa, and Keyburn of Pennsylvania, and as another mark of respect to memory of the deceased the house adjourned.

THE INDIAN BOY SENTENCED.

LAWRENCE, Kan., 15.—Sam Wilson, the Indian boy, who created such a disturbance at Haskell institute a few days ago was tried today before Justice Bernberg. Mr. S. D. Bishop appeared for the defense and W. W. Newson for the state. At the beginning of the trial the defense moved that the case be dismissed on the grounds that the state courts had no jurisdiction over crime committed on grounds owned by the United States and exempt from taxation by the state. The attorney for the state argued that when the land was transferred to the government it was transferred to the state. The cases of postoffice sites were cited, and it was claimed that if a crime committed at Haskell institute could not be tried in state courts, then the same would not be tried in the federal courts. The court overruled the motion and the trial proceeded. The defendant, Wilson, was not familiar with the English language, a Pawnee boy acted as interpreter. The testimony did not bring out anything important that did not appear at the time the trouble took place. Wilson was found guilty and sentenced to ninety days in the county jail and to pay the costs.

THAYER ASKS ANOTHER REDUCTION.

LINCOLN, Neb., March 15.—Governor Thayer has addressed a second letter to the railway managers on the same question. He reviewed the history of the agitation and declared that the gamblers, speculators and dealers in futures have absorbed the 10 per cent reduction granted and the farmers have had no benefit therefrom. He makes another demand for a per cent rate per 100 from Nebraska points to Chicago and after contrasting the prosperous condition of the railway with that of the farmer, he closed with the statement that the people of Nebraska don't want to fight the railways. He says: "But I again warn you against disastrous consequences to the strip entering here, passing through the most fertile portion. The prairie fires are seen in every direction, many settlers having set the grass afire to windward."

THE FEELING AT GUTHRIE.

The Expelled Boomers Likely to Return to That City.

GUTHRIE, Ok., March 15.—Great excitement about the opening of the strip here has existed all day. A message was received from Congressman Peters, which was posted on the bulletin board, stating that parties who went there would be put out. This stopped a great many from going, but the comparatively small number of people on the streets and the abandoned camping grounds of the boomers on Wolcott's creek, just north of Guthrie, show three or four thousand people at least left here. The general feeling here is that those in the strip will be driven out and probably the greater part of them will come here as Guthrie is near the Iowa lands, which may soon be opened.

THE DRINKS FOR SUMMER.

SPECIAL DISPATCH TO THE DAILY EAGLE. REXBERRY, Kan., March 15.—The little English colony is looking just. The buildings are going up just about as fast as they can. The latest addition is a manufactory built for Messrs. Seton & Stewart for the manufacture of the best grade of bottled waters, soda water, lemonade, etc. This firm has put in a large plant of entirely new machinery and is about to place on the market a far superior class of goods to any that has ever before been produced in these western parts. We expect Messrs. Seton & Stewart to turn in a few days with sample, and our advice is, sample their goods and you will not be disappointed. You know the men; they will not sell anything that is not first class.

STATISTICS ON PRODUCTION.

TOPEKA, Kan., March 15.—Secretary Mohler, of the state board of agriculture, is sending out blanks to the correspondents of the department in every county in Kansas upon which to make crop and live stock returns for the quarter ending March 31, 1890. Among other statistics which the next quarterly report will contain will be the average cost of raising a bushel of wheat and a like quantity of other grains, and the average cost of producing a steer yearling. This data the secretary feels confident will be of great importance to farmers throughout the state and will be of practical assistance to them in fixing the price of farm products.

THE NEW FRENCH CABINET.

PARIS, March 15.—The new cabinet will probably be made up as follows: President of the council and minister of war, M. DeFreycinet; minister of foreign affairs, M. Combes; minister of the interior, M. Bourgeois; minister of finances, M. Bouverie; minister of justice, M. Brissot; minister of commerce, M. Roder; minister of public instruction, M.
